The ultimate goal is to have your favorite player in your Ultimate Team Squad. You can build your collection through matches or through packs. FIFA 22 packs will include different player cards, or more commonly known as “player cards” for both player career and match, training, and team rating cards. Packs also include a stadium pack, meaning you can customize your stadiums as you create the squad. FIFA 22 packs will also include additional gameplay features that will make your experience more rewarding.

**EA SPORTS™ FIFA Street™** – Use your footwork to navigate the open pitch and bury your striker from the inside out during FIFA 22 street mode. It’s a whole new way to tackle the pitch for fun and competition. Perform on the street or on the beach, take full control of the ball, and play the ball with that trademark dribbling and flicking style. The more you dribble the more points you score.

**New Controls** – The first touch controls in FIFA are tighter and more refined for both touch and passing. Players will be able to turn on a dime, and easily spin and power through onrushing defenders or open up on goal. Speed and power will continue to be a key emphasis on this year’s game as the passing and dribbling mechanics become faster and more advanced.

**New Views** – A new 3D perspective allows for a new level of immersion when playing the game. Some game modes will even feature players, stadiums, and the crowds as 3D characters. In addition to being able to view the game’s 3D environment from different viewing angles, you can now choose from a variety of camera views to get the perfect angle.

**New Camera Controls** – FIFA 22 takes on a more cinematic camera approach, allowing players to get to specific angles with ease. You

---

can now pinch, slide, and drag the camera across the pitch to get the right view for any of the game modes. **New Viewing Experience** – In FIFA 22, the viewing experience has been improved to give you a better view of the action and the weather will also be more interactive than ever before. The improved weather in FIFA will be more accurate and adjust based on your geographical location. **Two All-new Pro Clubs** – When EA Sports FIFA unveiled its first two all-new clubs on Friday, they made FIFA the biggest club game in the world.
